UPDATED 9/5/19: The Department of Revenue recognizes the efforts of taxpayers to provide information on or before September 3, 2019, may be substantially impacted by Hurricane Dorian. As such, the Department has issued Emergency Order No. 19-002 implementing provisions of the Governor's Executive Order No. 19-190 (RE: Hurricane Dorian), which states the Sept. 3 due date for Corporate Income Tax Additional Information is extended to Oct. 27, 2019. For more information, visit the Department's [Submit Corporate Income Information](#) webpage.

Florida Corporate Income Tax 2018 and 2019 Taxable Years Reporting of Additional Required Information

Florida law requires every taxpayer that files a Florida corporate income/franchise tax return (Form F-1120 or F-1120A), for any taxable year beginning during the 2018 or 2019 calendar year, to report additional information from each taxable year to the Department. The additional information must be submitted online at floridarevenue.com. An officer of the corporation, or a person, including an accountant, that is duly authorized to act on the taxpayer's behalf, must certify that the information submitted is true and correct.

Does this new requirement apply to my business?

If this TIP was mailed to you, the Department anticipates you will be filing a Florida corporate income/franchise tax return for your 2018 and 2019 taxable years, and will be submitting the additional information. For details on who must file a Florida corporate income/franchise tax return, please visit floridarevenue.com.

If you are not required to file a Florida corporate income/franchise tax return, your account needs to be updated to reflect this status at floridarevenue.com/taxes/updateaccount. For example, a corporation no longer in business, or a Subchapter S corporation that does not pay federal income tax on excess net passive income or LIFO recapture (Line 22, federal Form 1120S), is not required to file a Florida corporate/franchise tax return.

How do I report the information?

The information is reported online at the Department's website. Visit floridarevenue.com and access the **Submit Corporate Income Information** online application. Enter your corporate name, federal identification number, taxable year beginning and ending dates, and the required information listed on the previous page. Information must be entered for each item, even if the answer is zero. Once the application is completed, click the 'Submit' button. A confirmation number will be provided for your records once the information is accepted.

Importance Notice: You must enter this information into the online application within 20 minutes of accessing the application. Therefore, it is highly recommended that you collect the information that needs to be reported before starting the online application.

If your report is not complete, it will not be accepted, and an error message will be displayed. You must complete or correct the report and submit again. If you do not receive a confirmation number, your information has not been accepted.

When is the additional information due?

For each taxable year that begins during the 2018 and 2019 calendar years, you are required to report the additional information. The additional corporate information is due the earlier of 10 days after the extended due date of the Florida corporate income/franchise tax return (Forms F-1120 or F-1120A), or 10 days after the tax return is filed. If you have filed your tax return or the extended due date for your return is prior to September 3, 2019, your additional information will be considered timely if submitted by September 3, 2019.

Penalty

If you fail to timely report the required information, you are subject to a \$1,000 penalty, or a penalty of 1% of the tax due, whichever is greater, for each taxable year the information is required.
