**Motor Vehicle Sales Tax Rates by State as of November 30, 2012
And Tax Credit Application**

Motor Vehicles Sold in Florida to Residents of Another State

Section 212.08(10), Florida Statutes (F.S.), allows a partial exemption for a motor vehicle purchased by a resident of another state. The tax imposed is the amount of sales tax that would be imposed by the purchaser's home state if the vehicle were purchased in that state; however, the tax imposed must not exceed the Florida 6% tax rate. The tax collected is Florida tax and must be paid to the Florida Department of Revenue. The nonresident purchaser is required at the time of sale to complete Form DR-123, *Affidavit for Partial Exemption of Motor Vehicle Sold for Licensing in Another State*, declaring his or her intent to license the vehicle in his or her home state within 45 days of the date of purchase. If the nonresident purchaser licenses the motor vehicle in his or her home state within 45 days from the date of purchase, there is no requirement that the motor vehicle be removed from this state. **The rate of Florida tax to be imposed under this provision is indicated for each state below.**

The partial exemption for a motor vehicle sold in Florida to a nonresident purchaser **does not** apply to a nonresident corporation or partnership when:

- An officer of the corporation is a Florida resident; or
- A stockholder who owns at least 10 percent of the corporation is a Florida resident; or
- A partner who has at least a 10 percent ownership in the partnership is a Florida resident.

However, the partial exemption may be allowed for corporations or partnerships if the vehicle is removed from Florida within 45 days after purchase and remains outside this state for a minimum of 180 days, regardless of the residency of the owners or stockholders of the purchasing entity.

Currently, the states of **Arkansas, Mississippi, and West Virginia** impose a sales tax on motor vehicles, but they **DO NOT** allow a credit for taxes paid to Florida. Residents of these states should be informed that they must pay sales tax to Florida at the rate imposed by their home state when they purchase a vehicle in Florida and must also pay tax to their home state when the vehicle is licensed in their home state.

Motor Vehicles Purchased in Another State and Brought into Florida

Section 212.06(7), F.S., allows a credit to be given on tangible personal property brought into Florida where a like tax has been lawfully imposed and paid in another state. If the amount paid is equal to or greater than the amount imposed by Florida, no additional tax is due. If the amount is less than the amount imposed in Florida, only the difference between the two is due. However, it is presumed that tangible personal property used in another state, territory of the U.S., or the District of Columbia for six months or longer before being brought into Florida was not purchased for use in Florida; and therefore, no Florida tax is due. No credit of Florida tax is given for use in or taxes paid in another country. See section entitled "Foreign Countries." **Use the information provided below to determine if Florida allows a credit for a like tax paid in another state.**

Credit against Florida sales tax and any discretionary sales surtax shall be given for a like tax paid in another state, whether the tax has been paid to that state, or to a county or city (local taxes) within that state.
